

Social Responsibility Policy

Waste Management

- We arrange for waste paper to be recycled
- We arrange for printer cartridges to be recycled

Transport & Travel

- Where possible we shall use public transport in preference to personally owned cars
- We shall minimise the use of air travel

Raw Materials & Suppliers

- We ask key suppliers to provide copies of their environmental policies
- Where possible, we use recycled or environmentally friendly paper in our printers
- We invite staff to reduce unnecessary paper usage – where appropriate including double-sided printing, and photo-reduction where possible
- We encourage the suppliers of our offices to adopt environmentally friendly policies and practices and use recycled products where possible

Energy Usage

- We minimise our use of electricity, by ensuring appliances and lights are turned off when not in use
- We minimise the use of excess water where possible

Staff Involvement & Contribution

- We adopt an inclusive approach to our environmental practice, inviting staff suggestions, comments, and actions

Customers & External Influence

- Through our programmes we shall take steps to encourage our clients to adopt positive environmental policies
- We maximise the use of local products and local workforce where possible

Community Involvement

- Core-Asset Consulting aims to be an employer of choice and through both charitable donations and active employee participation in community projects strives to give something back to the overall environment.

Annual Review

- We review our policy and practices annually at Senior Management level and share with the local community, part of the success we have achieved.
